- c. Register by calling – 866-KIDZ FUN. The office can register you. We accept all major credit cards.

Once you register, you will get a confirmation email. A few days prior to the start of the club, you will get an email with login instructions for the virtual meeting. You will also receive a package with supplies. Included in the supplies will be:

1. Most materials – there are some common items that you will be required to provide – pens, tape, scissors, etc. There will be a list of supplies that you need to provide.
2. Parent letters – the parent letters summarize the lesson and provide an “Try It”. This is another activity that you can do with your student that will extend the lesson. Although supplies are not provided for the “Try-It’s” they are fun activities that hopefully will help parents with their online schooling.
3. Worksheets – Each lesson includes a K-2 and a 3-5 worksheet. The worksheet may be used during the lesson or provided as an extension activity. Our goal with these worksheets is to help parents make the connect STEM literacy with reading and writing literacy.

If you have any questions, please feel free to call or email us:
